About Us

Metrobus is a wholly owned entity of the City of Johannesburg Metropolitan Municipality. Our Mandate is to deliver reliable, efficient and affordable public bus transport services to citizens of Johannesburg on behalf of the City.

Quick Facts

Metrobus operates a fleet of 383 buses that are deployed to transport commuters on 229 routes and covering an average of 6.9 million Kilometres annually. We operate 6 days a week from 04H30 to 19H50. Over the last five years Metrobus has transported an average of 6 million passengers a year.

Our Employees

Metrobus employs a total of 312 men and women dedicated to the service of our commuters. A number of programs are run by the entity to ensure that young people are ready to take up employment at the entity through internships, learnerships and apprenticeship programs.

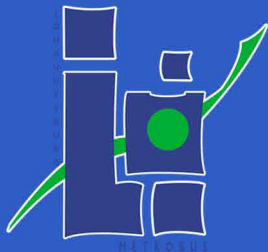

The Environment

The entity is a leader in the bus transport industry on the adoption of alternative energy solutions. An average of 45% of our fleet is engineered to operate on compressed natural gas which is less harmful to our natural environment and ensures that our operations are sustainable.

Corporate Social Investment

Metrobus operates a specialised service for the mobility requirements of commuters with special needs. Seven buses have been modified to ensure easy access and convenient seating. These commuters are picked up from their homes to their various destinations. The cost of travel for pensioners and scholars is significantly discounted.

Mission, Vision and values

Metrobus Information and Interchange Hub

Gandhi Square remains the entity's operational transfer and interchange hub for commuters going to different destinations. Given the geographical spread of the city of Johannesburg, Metrobus operates three major bus Depots in and around Johannesburg. Milpark Depot is the largest, Village Main and Rooderpoort, west of Johannesburg. There are further four satellite Depots, such as Eldorado Park, Fordsburg, Ferndale in Randburg and Soweto Depot.

Gandhi Square

Remains our largest bus terminal in the inner-city. Allowing commuters the latitude for interconnection to various destinations across the city at no additional cost.

Our Operational Zones

For the purposes of Metrobus's operations, the city has been divided into concentric zones, radiating out from the CBD. There are currently six zones, with most of the routes starting from the inner city points in Zone 1.

The number of zones a commuter crosses determines the fare. As demand for public transport grows, Metrobus increases the number of routes to different areas. Some major routes do not go through the CBD at all.

One such route goes between Soweto, Sandton and Sunninghill:

- Zone 1:** From the city centre to Parktown and to Joe Slovo Drive and Louis Botha Avenue;
- Zone 2:** From the corner of Jan Smuts Avenue and Empire Road in Braamfontein to the corner of Jan Smuts Avenue and Tyrwhitt Road in Rosebank;
- Zone 3:** From the corner of Jan Smuts Avenue and Tyrwhitt Road in Rosebank to Craighall Park;
- Zone 4:** From Craighall Park along Beyers Naude Drive and to the Randburg Mall;
- Zone 5:** From the Randburg Mall to Beverley Gardens;
- Zone 6:** From Beverley Gardens to Northgate.

In addition Metrobus also runs three cross-town routes:

- Route 520 between Naturena and Randburg Centre
- Route 420 operates between Westgate Shopping Centre
- Randburg Centre via Strijdom Park
- Route 421, which has four variations: R421 A: Bellevue to Auckland Park
- R421 F: Bellevue to Fairlands
- R421 N: Yeoville to Northgate
- R421 S: Yeoville to Strijdom Park

These routes and bus stops are clearly marked with a white sign, indicated on the top of the route number and on the bottom of the zone number.
